I've always been fascinated by how these communications worked, how they were coded. I wanted to know how the world works and how we are connected. And when I began to explore this connection, I found that my research could create a bridge between science and religion, not separate them. I began to realize that science and religion have much more in common than one might think. I was wondering how science explains this. When I started studying this book, I found that I had answers to many questions. fffad4f19a
