NoVirusThanks Send To Manager Crack For Windows is a tool that allows you to check the file properties for the.LNK files and help you manage all the broken

shortcuts from your desktop. Allows you to remove pesky, unwanted shortcuts The program comes with a clean interface that is designed as a table and includes all the shortcuts detected on your system. Afterwards, you can decide what to do, namely inspect it further by accessing the File Properties, read more about it via a Google Search or just remove it. The aforementioned functions can be accessed from the context menu. The highlight of the program stems from the fact that it provides you with detailed information about each shortcut, meaning name, location and the target process. Once you establish it is obsolete, you can remove it with just one click. On a side note, the app does not remove system shortcuts. Easily

add new shortcuts to file you are frequently using In addition to removing unwanted shortcuts, the application can lend you a hand with creating new ones for the files and folders that you are using on a regular basis. Consequentially, if you need to manage bulks of data daily, it can save a lot of your time and energy. Adding a new shortcut is a fairly easy operation that entails specifying the local path for the desired file or folder. In addition, you can add a custom name for it so that you recognize it faster, an option that can be helpful if you have dozens of shortcuts on your desktop. A reliable utility for managing shortcuts on your system Regardless of whether you are installing and uninstalling numerous apps on your

computer or you are solely looking for a solution to delete a few shortcuts that are obsolete on your desktop, NoVirusThanks Send To Manager Cracked Version can come in handy. NoVirusThanks Send To Manager System Requirements:
